your search is over

job application

Dear Human Resources Guys,

seems you are looking for a reliable person to run the local nuclear power plant. I think your search will be over after you invited me for an interview. I am everything you need and i am willing to contribute my knowledge and strength to the company.

I make a hell of a potato salad, I'll prove it at the next company picnic.

I'll enclose some of my previous activities.

Best regards

Tasty Fried Liver
