Human Ressources
Duckburg

April 6, 2015

Dear Human Ressources Guys,

seems you are looking for a reliable person to run the local nuclear power plant. I think your search will be over after you invited me for an interview. I am everything you need and i am willing to contribute my knowledge and strength to the company.

I make a hell of a potato salad, i'll prove it at the next company picnic.

I'll enclose some of my previous activities.

Best regards

tasty fried liver
